

# Vecosan TTC-101

**Acid cleaner with strong degreasing properties.**

- Acid cleaning product for the removal of traffic film and atmospheric contamination

## Application

VECOSAN TTC-101 is an acid based cleaning solution with strong degreasing properties based on hydrofluoric acid, effective and non-ionic surface active agents. It can be used in solution and on practically all metals and painted surfaces to effectively remove traffic film and atmospheric contamination totally. VECOSAN TTC-101 is used for cleaning of heavily contaminated trucks and containers.

## Directions for use

VECOSAN TTC-101 is used depending on the degree of contamination. A solution of 1 litre of product can be added to 7 or 9 litres of water. Apply the product with brushes or a low pressure spray applicator. Leave for a few minutes (max. 5 minutes) and flush with high pressure water. The waste water must be neutralised prior to disposal by heavy dilution or treatment.

## Properties

Colourless and clear liquid based on Hydrofluoric acid. Not inflammable and fully miscible with water.

The concentrated product damages glass, but in a solution is quite safe.

Specific Gravity (20 °C)	: 1,02
Flash point (PMCC)	: none
pH (1% solution)	: 2.5
IMO-code	: 8-1790-T1750

Contains Hydrofluoric acid.
